SPOT SIGNS Gang behaviour

Girls can be affected by gangs, but their involvement may be hard to spot.

Many involved with gangs may believe that what they are being pressured, forced or are choosing to do is acceptable or even normal. They may not realise that what is happening to them is wrong; they may be afraid of what might happen if they tell anyone and/or they may think that no one will believe or protect them.

Signs a girl might be involved with a gang

- Changes in physical appearance (e.g. wearing more 'adult' clothes, or wearing baggy clothes and no make up).
- Unexplained money or possessions
- Getting involved in fights
- Committing crimes such as shoplifting
- Regularly staying out late or going missing from home
- Abusing drugs and/or alcohol
- Physical injuries (which may indicate violence from others and/or self-harming)
- Refusing to seek medical help for such injuries and becoming increasingly withdrawn and/or prone to unexplained outbursts of anger
